## **Teresa's history**

Managing Director, Prosci® instructor and Primary Prosci® affiliate in South Africa, she looks after Clients from the very first contact until the final phases of the project.

After her Masters degree in Education, Teresa specialized in adult education and went on to design a number of highly commended management and business courses.

Teresa observed the tangible results in organizations that chose to apply Prosci®'s Change methodology and knew that she wanted a hands-on role

in exposing more businesses to the same results.

She formalized her working arrangement with Prosci® and became their Primary Affiliate for South Africa, even becoming a qualified Prosci® instructor herself. Her understanding of the need to manage change, her love of people and passion for good customer service keeps her involved in the hands on service of all our clients.
